## CONGRESSMAN COLMER HAS ACTIVE RECORD IN THE HOUSE OF CONGRESS

Review of His Five and One-Half Year Tenure Representing Mississippi Coast District—Seeks Re-Election At Primary August 23.

Congressman W. M. Colmer is formally announced by The Sea Echo this week as a candidate for Congress to succeed himself, his candidacy subject to the Democratic primary to be held in August of this year.

#### Colmer is Qualified

That Bill Colmer has made a good Congressman most unbiased people will admit. As this campaign gets under way it would be well for the voter to analyze the qualifications of the respective candidates for this important office of Congressman and arrive at a conclusion as to how he should cast his ballot based upon a logical and sane analysis rather than by listening to vain promises and political propaganda. The voter should ask the question—What does he expect of his Congressman?

#### Diligence

During Bill Colmer's tenure of office he has been absent from his duties at Washington for only three brief periods. First, on the occasion of his District. Second, on the occasion of the death of a member of his family. Third, to address a Veterans' Convention.

#### Confidence of Colleagues

In the brief time that Bill Colmer has represented this District in Congress he has succeeded to a marked degree in gaining the confidence and respect of his Colleagues. This has been a big asset in his ability to get legislation and projects favorable to his district. This fact was commented upon the floor of the House by one of his Colleagues who was opposing a measure that Colmer was advocating.

#### Seniority

In a body consisting of 435 Representatives, seniority is the rule of procedure, and regardless of ability, all new members of Congress must start at the bottom. They are advanced as their constituents keep them in Congress. Bill Colmer, by virtue of being kept in Congress for the past three terms, occupies important committee assignments and is constantly advancing under the rule of seniority to a chairmanship of an important committee.

#### Attentiveness to Duty

Bill Colmer has in the past five and a half years built up a reputation for prompt attention to his constituents' business with the departments that is outstanding. During that period he has received approximately 150,000 letters from his constituents and other interested parties. He has promptly and courteously answered all of his letters and given them the attention which they demanded.

#### Efficiency

There are hundreds of important bureaus and departments in Washington, and the longer a Representative remains in Congress the more contacts and friendships he is enabled to form with these departmental heads, thereby more readily obtaining the approval of projects and allocations of funds for his district. Bill Colmer, affable, congenial, and enjoying the respect of all those with whom he deals, has formed hundreds of these contacts and friendships.

#### Experience

Bill Colmer by virtue of his attention to duty has familiarized himself with the departmental red-tape and thereby is better qualified than ever to handle those departmental matters.

#### Legislative Experience

Bill Colmer, through constant attention to his legislative duties and participation in debate on the floor of the House, has gained five and a half years of this experience.

#### Veterans Legislation

Bill Colmer is recognized as one of the leaders in the House for legislation favorable to the veterans who fought the country's wars. He served on a committee which liberalized the veterans' benefits. He was one of the sponsors of the Widows and Orphans Bill. He secured the amendment to the Reorganization Bill which exempted the Veterans' Administration therefrom. He received the plaudits of the National Commanders of the American Legion, the Veterans of Foreign Wars, and the Disabled American Veterans for his work on the passage of the Bonus Bill. He served as chairman of the committee which unified and solidified all factions in favor of one piece of legislation on this important matter.

#### Old Age Assistance

Bill Colmer offered the amendment to the Social Security Act

## PROCURING NATURAL GAS SUPPLY FOR BAY ST. LOUIS REPORT.

Engineer F. Joseph White, Mayor Reporting Progress Of Proposed Project.

Mayor G. Y. Blaize is in receipt of a letter from F. P. Joseph, consulting engineer, the gentleman who has negotiated with the city of Bay St. Louis for authority to install natural gas thru the city, in which he tells of the progress in the premises.

Considerable has been printed in these columns regarding the proposed improvement for the city and widespread interest aroused. Since Mr. Joseph's departure last month, to seek and to arrange for gas supply, nothing has been heard and an anxious public will be glad to learn of the letter received.

Mr. Joseph said before leaving it would be necessary to first negotiate for supply of gas before making the survey. Here is what Mr. Joseph has written the Mayor:

I am writing to give you some information as to progress on the Bay St. Louis Natural Gas Project. "I am conducting an investigation relative to the supply of natural gas for your city. In this connection, I am awaiting the determination of the United Gas Pipe Line Company, to whom I have submitted a brief on the requirements of the city. I must await their conclusion as to the point of service before I can begin my design upon which I am now progressing."

"I have secured necessary data on the water crossing, in the event that United Gas serves us from the east side. As soon as I have concluded the design, I shall return to Bay St. Louis to complete the laying of the lines on the plans within the city and discuss such matters as may be pertinent at that time."

Further and more definite information in the premises may be expected at any moment, according to the foregoing.

## W. P. A. Library Lights.

This week the library offers fiction "Blow for a Landing," a river story by R. B. Lucien interesting to many who come in contact with the river people and next—fiction—"The Importance of Living" by Yutang Lin.

On Tuesday the 11th of July at the Parish House on Carroll avenue the library presents Durante da Ponte as reviewer of "The Dark River," the latest book of the co-authors Nordhoff and Tull. This book is just off the press and young Mr. da Ponte, hurrying from his review of "The Hurricane" by the same authors is most capable of making this interesting.

The absent-minded professor's latest deed is to strike his wife and kiss a match.

## Holy Eucharistic Congress To Be Held at New Orleans October 17 of Wide Interest

On October 17th, Catholics from all parts of the United States will gather in New Orleans to pay public homage to Our Lord in the Blessed Sacrament. Two and one quarter centuries of Catholicism is the patrimony of the Old World New Orleans and, likewise is the background for the English National Eucharistic Congress.

In the French Colonial days processions in honor of the Blessed Eucharist were regularly held on "la Fete Dieu," the Feast of Corpus Christi. Bienville, Marquis de Vaudreuil, Perrier and Kerlerec as well as the other notables of the day, reverently marched in these processions.

When in 1789, General O'Reilly took over the colony, therefore in French hands, he and his retinue went to the venerable edifice, known as St. Louis Cathedral, for Benediction of the Blessed Sacrament and the singing of the "Te Deum." All similar major historical events were likewise celebrated. Andrew Jackson, for instance, came thither for

The city administration is to be complimented on the manner in which the traffic was handled the Fourth of July week-end in Bay St. Louis, by Chief of Police Hobbs and assistants. Mayor Blaize and commissioners added to the force and due to thoughtfulness and efficiency not one accident was reported—not even the slightest untoward incident. Street traffic flowed day and night with system and dispatch. Thanks to those who made for this safety.

## King's Daughters' Hospital Directors Hold Regular Meeting

A regular monthly meeting of the board of directors of Bay St. Louis King's Daughters hospital was held at the office of the institution Monday morning, with Mrs. A. F. Fourmier, president, in the chair.

The report for June was read by the superintendent, Mrs. C. E. Craft. There were 46 patients treated during the month of June. Of this number 32 were charity patients and 14 paid, amount collected from this number, \$55.50 not sufficient to pay the actual overhead of an institution that means so much and does outstanding work for the community and county.

The hospital is sustained by membership dues of members of the King's Daughters of Bay St. Louis and Hancock county, by limited appropriations State, county and city and it is due only to splendid management and close application both ends are made to meet—when they do.

This institution is entitled to the liberal support of the community in view of the fact it dispenses so much charity to one and all alike. The hospital was not established as a money-making concern, it was provided for in His Name, but nevertheless considerable funds are necessary to keep the good work to suffering humanity going.

## REVIEWS WORK OF ROTARY

Immediate Past President Norton Haas Tells Work Of The Club During Two-Year Term.

President Rene de Montluzin, Jr., Bay St. Louis Rotary Club, presided over his first regular meeting Wednesday at Hotel Reed. Following a short but well worded talk expressing his appreciation of the honor conferred upon him and soliciting the co-operation of the membership in order he may be able to accomplish much, he introduced Former President Norton Haas, who was the program speaker for the day.

Mr. Haas very modestly reviewed his two years' tenure of office and told, with the assistance of the membership and, public as well, what the club had accomplished over that period.

Regarding the last mentioned item, the Rotary organization is putting forth every effort to secure the annual Southern A. A. U. two-mile swimming race for Bay St. Louis, guaranteeing all expenses. It is pointed out that the bay offers an ideal place for swimming, the distance two miles; and the pedestrian walk of the bi-county bridge would serve admirably as a stand from which to view the progress of the race.

President Rene de Montluzin is enthusiastic and plans to work for a greater organization; to accomplish all that is possible for the further advancement of the community and its people.

## COLMER SEEKS RE-ELECTION.

CONGRESSMAN William M. Colmer announces in this week's issue of The Echo his candidacy for re-election to the office of Representative in the American Congress, which position he has held for the past five and a half years. In a brief announcement he said to the sovereign white voters of the Sixth Congressional Mississippi District:

"Dear Friends: The duties of the office to which you elected me have been so exacting during the past few months incident to the adjournment of Congress that I have not had the opportunity to make formal announcement of my candidacy for re-election heretofore. Now that those demands on my time have relaxed sufficiently, I take this method of calling your attention to my candidacy for re-election.

"During the past five and a half years that I have had the privilege of representing you in the Congress, I have earnestly, zealously, and patriotically given you my all in time, effort, and talent.

"This period of service has been during the most troublesome days of the Republic. Many new, perplexing, and controversial questions have faced the Congress during that time. I have confronted them with all of the wisdom and zeal of which I was capable.

"During that period I have made a record. That record is open to all. That record speaks for itself. That it is not perfect I am the first to admit. But of that record, in the main, I am proud. Upon that record and that record alone I base my claim for re-election. I ask your careful and sympathetic consideration of it."

The foregoing leaves little or nothing more to say only that Representative Colmer has always endeavored to serve his constituency to the best of his ability and to the advantage of his people and section. He has been on the job in and out of season and this is best attested to by his record.

The Echo commends his candidacy to the serious consideration of every voter in the Congressional district.

## A SKELETON THAT WAS A MAN.

THERE is infinite pathos in the uncovered skeleton of an unknown soldier on the battlefield of Gettysburg just as the veterans of the great war assembled for the seventy-fifth anniversary of the engagement.

The bloody battle took the lives of many men including that of a man whose skeleton was found. His bones, concealed in the sod for years, contrast his fate with the living veterans, who returned to the scene of their conflict after so many years.

The contrast between the skeleton and the living survivors on the field of battle is not more striking than that between the hate, brutality and carnage, which existed seventy-five years ago, and the general feeling of brotherhood, sympathy and understanding which exists today. Strange as it may seem there were at the battlefield last week some men who experienced the emotional rages of battle and yet lived to enjoy the calm of peace and compassion.

## BUILDING REGULATION.

EVERY community should have such ordinance and regulations that might come under the head of building code regulating the kind of building that might be constructed in business and other prominent sections. There is no restriction as to what style, shape or manner a business building might be constructed. It might be built of discarded corrugated iron, of the cow shed variety, or it might be entirely out of line of modern and accepted lines of architecture. It is dangerous for investors who would seek to come to a community and find no protection against such outlandish imposition. A city without zoning and without a city engineer with authority to accept or condemn such plans for business building is in a bad plight—that is, there are many possibilities that will not jeopardize the immediate progress of a neighborhood or section but that will prove a lasting detriment.

## LET US NOT REST HERE.

AUTHORITIES of every community on the Gulf Coast have cause for self congratulation on the fact this entire section was free from fatalities during the week-end of the July Fourth. While there is cause for congratulation we must not be satisfied with this but rather strive further to keep the record clean. With sane driving there is no excuse for any accident. The fellow driving who is ever trying and seemingly over ambitious to pass the car ahead is the one to whom we would attribute cause for major number of accidents. This, of course, comes under the head of fast or reckless driving.

District-Gov. Oliver Emmerich, International Rotary, editor and publisher McComb Enterprise, attended a convention at San Francisco and has written daily in his paper a column or two of sidelights from the Golden Gate city. Exceedingly interesting and strikingly true and interpretive. The visitor who has not as yet gone to San Francisco, has plenty to see and learn. No other city like it. Emmerich is gifted and caught the drift of the great Western metropolis.

## ALL EYES TURNED TO JACKSON— TAX EXEMPT HOMES.

GOVERNOR Hugh L. White convened the Mississippi Legislature in extraordinary session Wednesday of this week for the principal object of adopting such bill as might be approved for exempting Mississippi homesteads from city, county and state taxes.

This is the first time in the history of the country such an experiment has been proposed and which, no doubt, will be adopted. Gov. White is satisfied the proposal was practical and could be put in successful use. However, there is a large dissenting factor that will be heard from, especially mayors from principal cities of the State and others. But, it is predicted, this opposition will be met by removing from the proposed bill all major provisions objected to.

Gov. White has made it known that summer and winter homes on the Mississippi Gulf Coast will also be subject to this proposed tax exemption, provided, however, the owner is a bona fide resident for at least three months of the year.

It was first proposed such owner had to be a registered voter and in other words become a bona fide citizen of Mississippi. But to this there was well supported objection.

It was claimed that a business man in New Orleans, since there are so many owning summer homes on the Gulf Coast, and a resident of New Orleans for the major portion of the year, would be subject to income and other taxes in Mississippi were he to become a registered citizen here.

Gov. White met this objection by modifying the proposed bill. Hence, summer residents from New Orleans and elsewhere may own summer homes on the Gulf Coast and be exempt from paying the ad valorem stipend. The Governor has always proven a friend of the great Coast section and again has manifested this spirit.

We are anxiously awaiting the deliberations of this session of the Legislature and the ultimate outcome. It will be well worth waiting for.

## ADVERTISERS "STOP SQUAWKING."

A LARGE Chicago department store advertising a plea to the public to end the economic slump by intelligent, optimistic action and urges people to "stop squawking like an infant."

It may be a little free advertising for Henry C. Lytton & Sons, but it is worth the space if some of our readers can catch the optimism and the faith that these words express:

"Congress has adjourned. We all know that every member has tried to do his best according to his own beliefs. While some of us might not be satisfied with the legislation that has been enacted, let us remember that nothing is perfect. Let us remember, too, that most of our business and governmental leadership is right—in its ideals.

"Let us stop 'squawking' about the small part which is wrong—in the faith that we will eventually arrive at the happy state of a social system that will bring about the greatest good for all."

The idea is not bad and the appeal is timely. Americans should be optimistic and expect the ultimate triumph of truth and righteousness. To bring it to pass, they should be willing always to adjust their social, economic and political affairs in the interest of justice. To protect and defend the existing order, when convinced that evil exists, is to perpetuate wrong and invite disaster.

## JIMMY SUMS UP THE WHOLE SITUATION.

JIMMY ARRINGTON, wit and mayor of Collins and editor of the News-Commercial, who addressed the Press Association at Gulfport and the Bay-Pass Rotary Clubs last week, offers this terse summation of the present situation:

Too much oats and too much wheat,  
Too much corn and too much heat,  
Too much cotton and too much oil,  
Too many hours that we don't toil,  
Too many highways, too many cars,  
Too many people behind the bars,  
Too much spending, too many bets,  
Too many failing to pay their debts.

Too many spending their dough on gas,  
Too much talking of European sass,  
Too many living beyond their means,  
Too many buying canned corn and beans,  
Too many sowing their crop of wild oats,  
Too many candidates after votes.

Too many people who don't give a damn,  
Too many people looking for Uncle Sam,  
Too many poets, too much prose,  
Too many girls without underclothes,  
Too much reform, too much law,  
The Damnedest mess you ever saw.

## NECESSITY OF PUBLIC PIER.

NECESSITY for a public pier for Bay St. Louis becomes more acute. This was especially demonstrated the past week-end and from day to day now that we are in full summer season.

Bay St. Louis has no bathing pier.  
Bay St. Louis has no fishing pier.  
Bay St. Louis has no recreational center over or near the water.

Bay St. Louis has no public bathing beach.  
Bay St. Louis has no place for picnickers with adequate accommodation for visitors to spend the day.

This may well be solved by the building of one large pier that would accommodate automobile traffic to and fro, with parking space, necessary buildings and the like.

This would seem a worth while federal project and the hope is expressed that Bay St. Louis will at some time have a place to attract the summer visitor and to entertain the number after arrival.

There would be no better investment for the city than a place where visitors may spend the day in divers recreational pastime.

Have you done your part in beautifying Bay St. Louis this year? If not, there's no better time to begin than the present.

## INTERESTING NEWS ITEMS OF THE MOVIES AND FILM FOLK IN HOLLYWOOD

THREE Loves Has Nancy" will Franchot Tone in one of the leading roles replacing Robert Young, Janet Gaynor and Robert Montgomery have the two other leading parts.

"The Arizona Judge," which will star Harry Carey, is described as a story similar to that of "The Last Outlaw," which was made two seasons ago.

A story about an elephant's devotion to a small town doctor who has a phobia against animals is called "Zenobia's Infidelity." Roland Young will be the star.

Robert Young has replaced Franchot Tone as the star of "It's Now or Never." The story is an adaptation of "The Idle Rich," which was made in 1929 featuring Conrad Nagel and Lelia Hyams.

Another series of family pictures is to be made with Henry Armetta as the head of the household. The principals in this series will known as "The Gabini Family."

Isa Miranda has been replaced by Claudette Colbert in the title role of "Zaza." Miss Miranda had been studying the part for six months but was removed from the cast after three days' shooting. Ill health was given as the official reason, but temperament and mis-casting were rumored as the real cause.

"Follies on Horseback" will reverse the usual order of horse operas. Instead of forty cowboys and a girl, Harry Langdon will play the lone male part while Lois January and Zazu Pitts will head the large female cast.

Sophia Tucker has terminated her contract with Metro and is now making a personal appearance tour.

Elaine Barrymore will have an important part in "Hold That Coed." When her husband was selected for the picture, he insisted that his wife be given a part.

Mrs. Cora B. Lane is the only movie mother who has three daughters working in the same picture at the same time. She sat on the side lines recently and watched the making of scenes in "Sister Act," in which Lala, Rosemary and Priscilla were featured.

Alan Hale has perfected potato chips to such an extent that they will stay fresh for a year. He is starting a factory for them in the near future somewhere close to Los Angeles. He already owns a theater chair factory.

C. V. France, the English actor who is past 70 years of age, and who recently came from London to Hollywood to appear in "If I Were King," experienced the chewing of gum for the first time several days ago. He said it was "quite tasty."

Alexander Korda is planning to make a screen version of the "Mikado."

Stars have learned that it pays to be nice to camera men and others of a movie crew as so much depends upon the way a player is photographed. For this reason the stars usually give out expensive presents to the studio workers after each picture. Al Jolson once bought \$15,000 worth of jewelry; Katherine Hepburn usually spends about \$3,000 and Marlene Dietrich has spent as much as \$5,000 for gifts after a single picture.

Robert Benchley was refused permission to go to his son's graduation at Harvard because the studio suspected that his real object was to attend the Louis-Schmeling fight.

Rudolph Valentino's white Arabian horse which he rode in his famous pictures, has been chosen for close-up scenes in "Suez."

Jack Mulhall had a complete wardrobe valued at \$2,500 stolen from him while he was playing the part of a police officer in "Crime Ring." Fortunately, everything was covered by insurance.

Since Patsy Kelly lost 45 pounds and tips the scales at 120, her friends have been calling her Marlene Kelly.

Three major studios are having a race to see who will get out a picture, based on Devil's Island first.

Charlie Grapewin was a trapeze performer with Barnum and Bailey in his youth.

"The Night of January 16," which had a long run as a play on Broadway, will be made into a picture by RKO.

## WHAT THE PRESS IS SAYING OF MEN AND MATTERS IN EDITORIAL EXPRESSION

### EXALT THE CITIZEN (Summit Sun)

"EXALT the citizen. As the State is the unit of government, he is the unit of the State. Teach him that his home is his castle and his sovereignty rests beneath his hat. Make him self-respecting, self-reliant and responsible.

"Let him lean on the State for nothing his own arm can do, and on the government for nothing that his State can do.

"Let him cultivate independence to the point of sacrifice, and learn that humble things with unbartered liberty are better than splendors bought with its price."

Powerful words those—the words of Henry W. Grady, that noble Georgian who gave the world so much sound journalism and high minded oratory. And we need those noble words to-day more than we ever needed them before in the whole history of America. We need a Henry Grady, rising to tell the people of America that they are selling their birthrights for messes of pottage, that this practice of leaning so heavily upon the government can mean only doom for us all, even the government itself.

In every editor in America there is a potential Henry Grady. For God's sake, brother and sister editors, and for the sake of this America we so cherish in the name of freedom.

dom. Be a Henry Grady for your respective communities. The time demands strong and urgent voices pleading with the people of America to "lean on the State for nothing their own arms can do and on the government for nothing the State can do."

Do your part.

### Six From Coast Go To Reunion At Gettysburg.

Four members of the United Confederate Veterans left Biloxi for Gettysburg to attend the reunion of Northern and Southern veterans of the Civil War. Those making the trip were John C. Smith, 108, Meridian; Z. T. Bailey, 94, Cleveland; A. D. Flourney, 98, Columbus; J. W. Castle, Yazoo City.

Besides these there are two union soldiers on the same train, Col. C. S. Alexander, 90, Biloxi and Augustus Boltz, 93, Gulfport.

The best story far told about that Louis-Schmeling fight concerns a California man who journeyed via plane from Los Angeles to New York to witness the bout. He paid \$100 for a ringside ticket. Just as the fight started he dropped his fountain pen beneath the seat and stooped to get it. When he looked up the fight was over.—Jackson News.

## NECAISE-DUBUISSON.

Mr. Willie Necaie of Sellers and Miss Lucille Dubuisson of Dubuisson settlement were married June 25 at Dubuisson Church at 2:30 P. M. Her attendants were, flower girl, Veldra Niolet; bride's maid, Lula Dubuisson. The bride was given away at the altar by her father Cville Dubuisson. The bride wore white satin dress and wreath and veil. Her bouquet was of lilies of the valley. The wedding march was beautifully rendered by the devoted organist, Mrs. D. V. Moran. The church was filled to capacity and a grand reception was held right after the ceremony at the home of the bride. This newly married couple will reside at the groom's home in Sellers.

The ceremony at the church was performed by the pastor, Rev. R. J. Sorin, of DeLisle.

## MURMURINGS OF THE NIGHT.

I listened to the murmurings of the night,  
Its sighing on the bosom of the dark;  
I caught the silv'ry flut'ring of the light  
Some moon was shedding from her droustous spar.

I felt the tiny twinkling of the stars,  
That sailed on melting clouds of glory fair;  
I heard the breezes shaking in their cars,  
As high they danced on the silent air.  
Then came an awful stillness all around,  
As peler grew the young moon's silver horn;  
A chilling breath like Death, swept o'er the ground,  
And earth seemed laden with a pain forlorn.

Quite slowly Dawn's pink lips kissed night to rest,  
And bade her dreams in Memory's hair;  
The temple fires glowed on Morning's breast,  
While climbed the sun to sing God's praise in prayer.

## GRACE MOORE'S TRIUMPHANT SUCCESS AT GULF THEATER

Sunday and Mon.—Tuesday Brings Lewis Stone In "The Man Who Cried Wolf."

Topping all past performances and fresh from her "One Night of Love," Grace Moore returns to the Gulf Theater Sunday and Monday in her latest musical hit, "I'll Take Romance," co-starring with Melvyn Douglas splendidly supported by Stuart Erwin, Helen Westly, Walter Kingsford and many others to bring you the year's outstanding show of music, comedy and romance. The plot woven by Stephen Morehouse Avery is one that deals with an opera star bored with routine of her work and by the management of her temperamental aunt, succumbs to the wiles of an apparently rich admirer. Playing on his luck, he persuades her to go to Buenos Aires to sing instead of Paris. And then is where the fun begins as one exciting event falls in with another until you have Columbia's greatest, gayest romantic musical, "I'll Take Romance." Comes to the Gulf Theater, Sunday and Monday.

## "The Man Who Cried Wolf"

On Tuesday, one day only, the management of the Gulf Theater is proud to present the outstanding mystery novel of the day with Lewis Stone, Barbara Reed and Tom Brown in Arthur Rothfels' "The Man Who Cried Wolf."

When the book first appeared it won wide acclaim because of the clever and intriguing way the plot was carried out. It concerns the life of a man who had a desire to commit the "perfect Crime," and who almost succeeded. For twenty years Lawrence Fontaine plotted the death of an enemy, and had made it a practice to confess to every crime in the community to have the police classify him as a slightly demented but harmless publicity speaker. When he at last achieves his own crime which he confesses to, the police only scoff at him. This pleases him until he learns that his son has been indicted for the murder he had committed! But in vain does he try to convince the authorities that they are wrong.

Is the loss of his own son to be the penalty for his wrong doing? What would you do in such an emergency? "The Man Who Cried Wolf" is a grand dramatic story of a father, a son and a girl who faced a major problem which ends in a smashing climax, all will hail as Lewis Stone's greatest performance. Be sure and see it Tuesday, July 12, at the Gulf.

## DeLisle Notes

On the first Sunday of July the DeLisle Catholic Church was filled to capacity not with tourists this time but with other visitors—nearly 300 persons. The decorations of the altars were superb especially the fine and exquisite roses given to us from the garden of Mr. and Mrs. John Legier, through the kindness of their daughter, Mrs. Olga L. Alough. The visitors noticed the beautiful voice of Miss Eunice Nevaie in the Veni Jesu of Cherubim just like the previous Sunday. The gathering admired the talented Mrs. Daisy Keel in her rendition of the latest song "I Dwell a Captive" a hymn to the Sacred Heart of Jesus. On that previous Sunday also the tourists had admired the beautiful flowers from the garden of Mr. and Mrs. Thomas A. Parker who also are residents in DeLisle and in the best located spots of "Windy Hill." All are welcome at our services every Sunday at 8 o'clock A. M. REV. R. J. SORIN, Rector.

## POPULAR COAST TRAIN CONDUCTOR RETIRES AFTER YEARS' SERVICE

Andy Doyle Serves L. & N. Forty-Seven Years—Will Reside in Biloxi.

"Andy" Doyle of Biloxi, the well-known L. & N. Coast Train conductor, who endeared himself to scores of passengers between Ocean Springs and New Orleans, is now traveling along easy street on the shady side of life to enjoy the rest of his years with his wife following 47 years of service with the L. & N. Railroad.

On the occasion of his retirement Wednesday there was sorrow on the commuters' train because Andy was quitting after his long unbroken service. Rene Viosca, United States attorney, one of the many commuters, on behalf of himself and other travelers, presented Andy with a large loving cup suitably engraved as a token of esteem.

**Long Travel Record**  
Some smart mathematician wore out several pencils in figuring that Andy traveled 2,463,552 miles, a distance to take him around the world nearly 100 times, even if his route was only from Ocean Springs to New Orleans and back on trains 36 and 37.

The Biloxian went to work as a switchman in 1891 and in a few months was made a passenger flagman and later on a freight brakeman. In 1893 a hurricane tied up train service on the division for two months and when service was resumed he was promoted to the position of conductor from 1919 to Feb. 27, 1938, he was on trains 35 and 36 and then went back to No. 7, which train he operated 40 years ago.

**Native of Mobile**  
He originally was from Mobile, but he has been in Biloxi since 1905. He and Mrs. Doyle have five children—E. Serda and A. M., Jr., New Orleans, Misses Lucille and Elizabeth New Orleans, and Mrs. John Joyce, Biloxi. He and Mrs. Doyle will now enjoy the comfort of a quiet home life for a time and then take trips to various points.

D. H. Ramsay, Mobile, succeeds Mr. Doyle on the Coast train, which leaves Ocean Springs at 5:05 a. m., and reaches New Orleans at 7:35 a. m., and on the return trip leaves the Crescent City at 3:30 p. m.

Many changes have been made along the railroad and in equipment and Mr. Doyle considers the air conditioning of the cars among the most important. In 1900 the Biloxi L. & N. station was destroyed by fire and the present structure subsequently was erected.

Alex Allison, Bay St. Louis, connected with a New Orleans law firm—Attention is called to the advertisement of William S. Johnson who has taken over the lease of the Standard Service Station corner Front and Main streets, John K. Edwards relinquishing the business in order to give his time to other interest. Mr. and Mrs. Johnson, from Oklahoma, were visiting on the coast, guests of Mr. and Mrs. Ben Hille, and becoming enamored with this Gulf Coast section, decided to locate and reside here permanently. They solicit a share of the public patronage.

—Mr. and Mrs. Reginald N. Blaize, residents of El Dorado, Ark., motored down to Bay St. Louis for the Fourth and will spend a two-week vacation visiting at the home of the former's parents, Mr. and Mrs. R. N. Blaize, and their family, South Beach boulevard. Mr. Blaize is in one of the richest oil areas in the country and reports that neither depression nor recession is appreciably felt in his immediate vicinity. Lately another oil field, 14 miles away, developed and the prosperity of that section of Arkansas continues unabated.

## THE LOW DOWN ON THE HIGH COST CONCEALED IN AUTO TAX LAWS

Kenneth Toler, Commercial Appeal Correspondent, Says There's a Million-Dollar Surprise Awaiting Motorists.

There's a \$1,000,000 "surprise" awaiting Mississippi motorists.

It is the new "Rules of the Road Law" enacted at the recent session of the Legislature, inauguration of which will mean an expenditure of fully that amount by the motoring public. This in addition to the regular license tag fees, gasoline taxes and other assessments motorists rightfully "squawk" about.

The new statute also requires bicycles and wagons although not motor-propelled, to have either lights or "approved" reflectors for night travel on the highways.

The "saving clause" in the act is that it is primarily for the safety of human life, designed to reduce the ever-mounting toll of life chargeable to motor vehicles. It has many safety regulations looking to this end, although when the law was passed few legislators realized the additional tax burdens they were voting on the motor car and motor truck operators.

Probably the hardest hit in inauguration of the new law levy are the truck operators. They must secure "approved" flares, flags, fuses and fire extinguishers for emergency use, as well as a system of "approved" lighting to outline the body of the truck to prevent it from side-swiping passing vehicles in the night time.

On a basis of the 42,514 trucks now registered, and computing the initial equipment at \$14.50 per vehicle, the expenditure will be around \$616,453, which does not include the body outlining lighting equipment of the front and rear reflectors.

Then, beginning shortly after July 1st come the "safety tests" of all motor vehicles, which will be required either semi-annually or more often if prescribed. The "test" comes at the rate of 50 cents per visit, which will not cover the necessary adjustments found to be needed before a clean bill of health can be issued the vehicle.

With at least two "tests" to be required annually, and based on the 191,152 automobile registrations at this time, another \$191,152 must be paid by the motoring public. Last year the law would have netted \$231,070 had it been in effect, as registrations for that period totaled 231,070.

The "surprise" does not end there, as on or before Nov. 1, each operator must secure drivers' license which costs 25 cents for each person. This fee goes to the party issuing the license.

Using registrations thus far this year as a basis and figuring only two drivers to a car, the License Law will mean another \$95,670 outlay by the motorists. No family license will be issued, with each person in the family required to pay 25 cents for the drivers' licenses.

Next is the cost of "testing machines" to stations to be designated as the "official station." The machines must be "approved" by the State Highway Safety Patrol and purchased by the garage owner or cities where municipally operated stations are designated.

The machines range from \$1500 upward; some carry a royalty.

At least two "official" stations must be set up in each of the 82 counties. Purchase of 164 of the minimum-priced testing devices will represent an expenditure by the garage owner or municipality of \$246,000.

It is these "testing machines" which determine the adjustments that must be made before a motor vehicle is given an okeh. Each time a car is rolled upon the machine means 50 cents for the owner, plus cost of adjustments by garages.

The above item does not include the new truck taxes which Editor Rice, is one of the passengers who has made the run as long as Mr. Doyle has been on the train and even longer.

From Ocean Springs to New Orleans and back—a distance of 168 railroad miles—Andy has traveled back and forth and he now feels that he has had his share of traveling with a clean record of no accidents, and now he retires with a pension, a long vacation and a lot of friends to bear tribute to his loyal and efficient service.

bear the burden of local taxation, as against the non-resident merchants.

## Federal Benefits

During the expenditure of billions of dollars of Federal money in an effort to restore prosperity, Bill Colmer has exerted himself to divert as much of this money as possible for the relief of the needy and the development of the district. While not claiming credit for it all he points out that this District has benefited most bountifully from New Deal expenditures. Approximately \$75,000,000 of Federal funds came into this district during his tenure of office—more than half of the amount of the assessed valuation of the sixteen counties of the district. He has been most diligent in getting these projects approved for his district, and there is scarcely a community in the sixteen counties of the district that does not have some permanent improvement to show for it. It has spread out over the entire district.

## An Investment

The Sixth District has an investment in Bill Colmer. Five and a half years of training, experience, and qualifications are at stake. The voters will be called upon on August 23rd to decide whether they will keep this trained and competent representative in Congress.

Burley Ives of the Columbus Commercial-Dispatch says, "there's a mighty howl going up about."

"In fairness to the operators, it must be said that the law is more taxless discriminatory and confiscatory," says Editor Ives. "Perhaps the lawbreakers went on the theory that too many irresponsible truck operators were in business and sought to eliminate them by heavy taxes."

Each of the new truck privilege taxes was the elimination of the mileage tax. Sponsors of the law said many operators now escaping the mileage tax will be "caught" under the new law and will possibly result in about 3000 going out of business.

Editor Ives illustrates the effect of the new truck taxes on a breakdown furnished by an operator who is operating an \$868 truck in Mississippi. For one year his computation for taxes under the new truck law alone shows:

Mississippi tax on five-ton truck, \$198; insurance \$500; bond, \$15; gas tax 50,000 miles, \$500; sales tax on truck, \$114; oil tax, \$5 and sales tax on 20 tires \$15.70. A grand total of \$1246.70.

"Tax and operating costs, it will be seen, comments Editor Ives, "it almost costs 50 per cent more than the cost of the truck although there's nothing in the figures for depreciation."
